# DIT SERVICE

by Kamerawerk GmbH.

We created an efficient and professional workflow for our DIT services. This workflow should make your set experience as convenient and flexible as possible.

We offer highest data security standards with multiple backups. We have fast machines and our highly skilled DITs are able to support DOPs with their professional expertise.

Our service contains even more. Starting from our basic workflow you can choose between various additional services, according to your production needs.

Additionally we also offer editing and color grading services for postproduction.

## Data & Quality Check

We check exposure values and signal quality. We also check if all files are backed up correctly.

## Edit Support

We provide script notes and useful metadata for a better post-production workflow.

## Synchronizing and Transcoding

We can synchronize image and sound data and will transcode camera footage to a desired proxy format for editing.

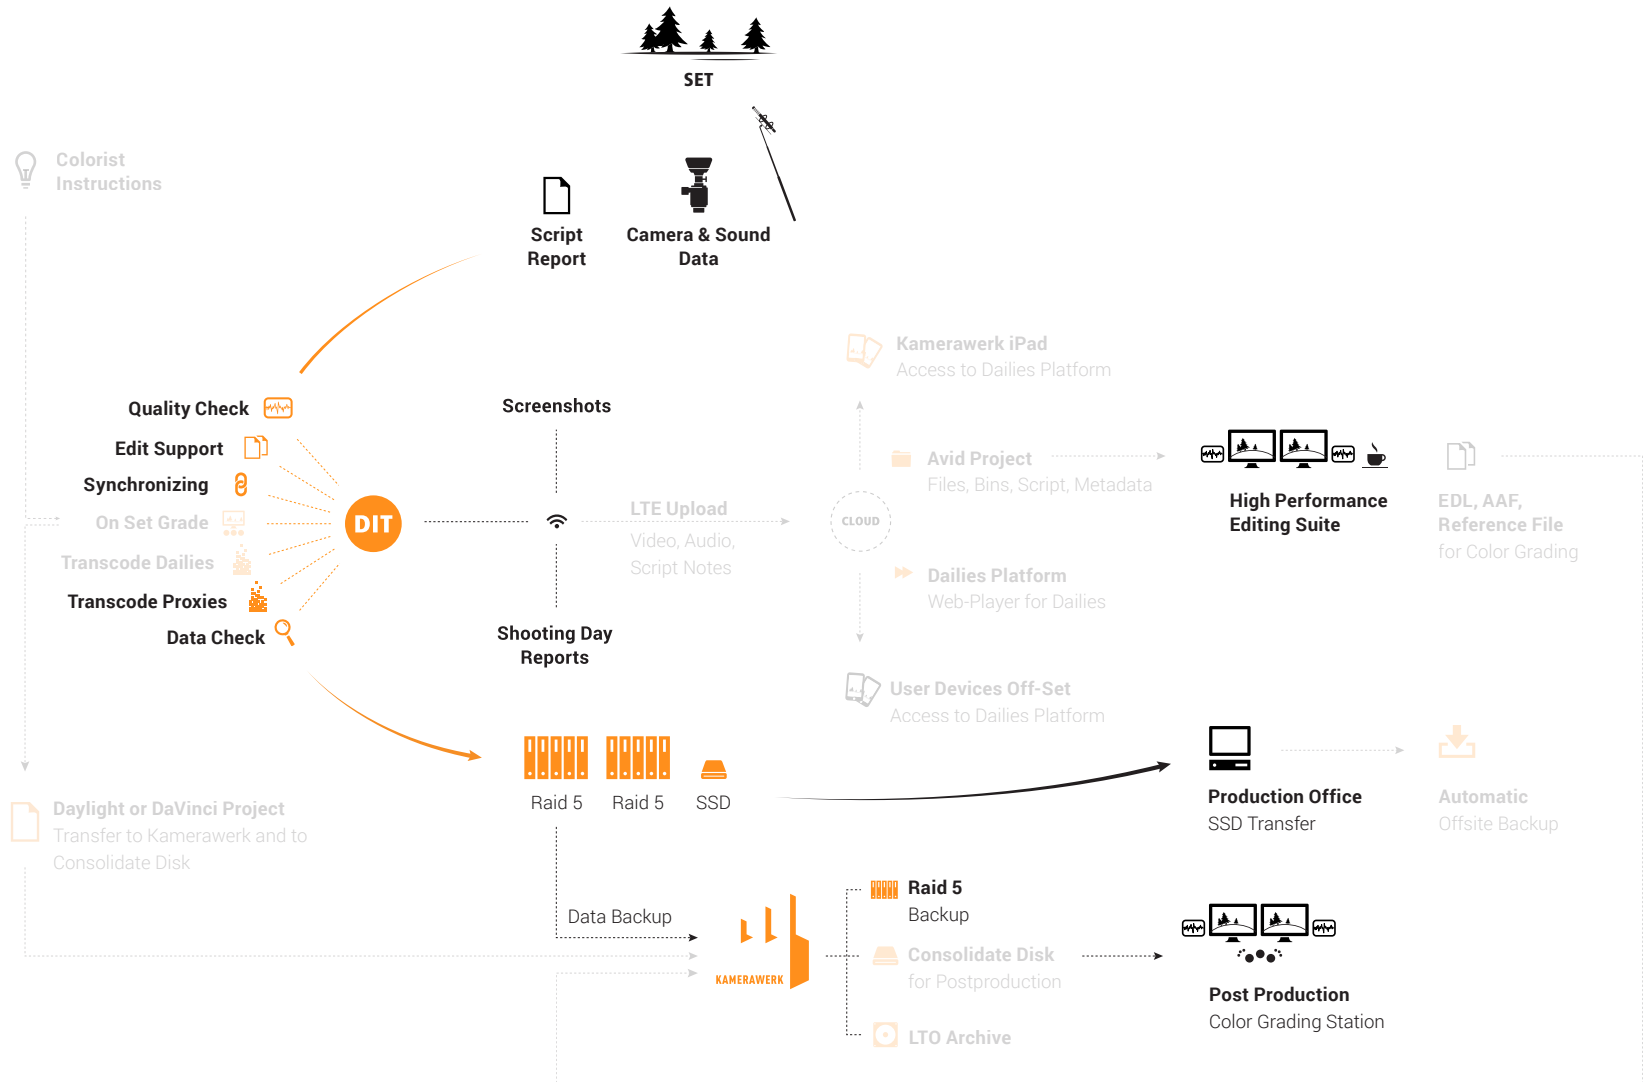

## Multiple Backups

Our DITs create three backups. Each with checksum verification to ensure, that every bit is identical with the original footage.

# BASIC WORKFLOW

by Kamerawerk GmbH.

■ Provided by KAMERAWERK.  
KAMERAWERK also offers Editing and Color Grading

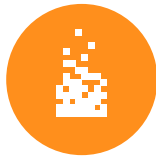

# ADVANCE YOUR DIT SERVICE

Choose between our different modules.

## On-Set Grading

Why wait until post-production when we can speed-up your grading process directly on-set?

## Dailies Transcoding

We create dailies with synchronized sound and the desired look applied.

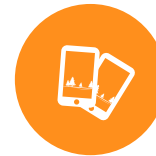

## AVID Project

We create a comprehensive Avid project with video, synchronized audio, script notes and metadata.

## Dailies Platform

Our dailies platform provides an online solution for reviewing the entire footage.

## iPad

Use our iPads to provide your clients access to our dailies platform.

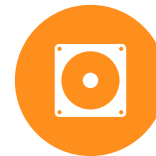

## Automatic Offsite Backup

Just plug in transfer SSDs to a computer in your office and we will take care of the rest.

## Consolidate Disk

Used in post-production, it contains original camera files, EDL, AAF and an edit reference file.

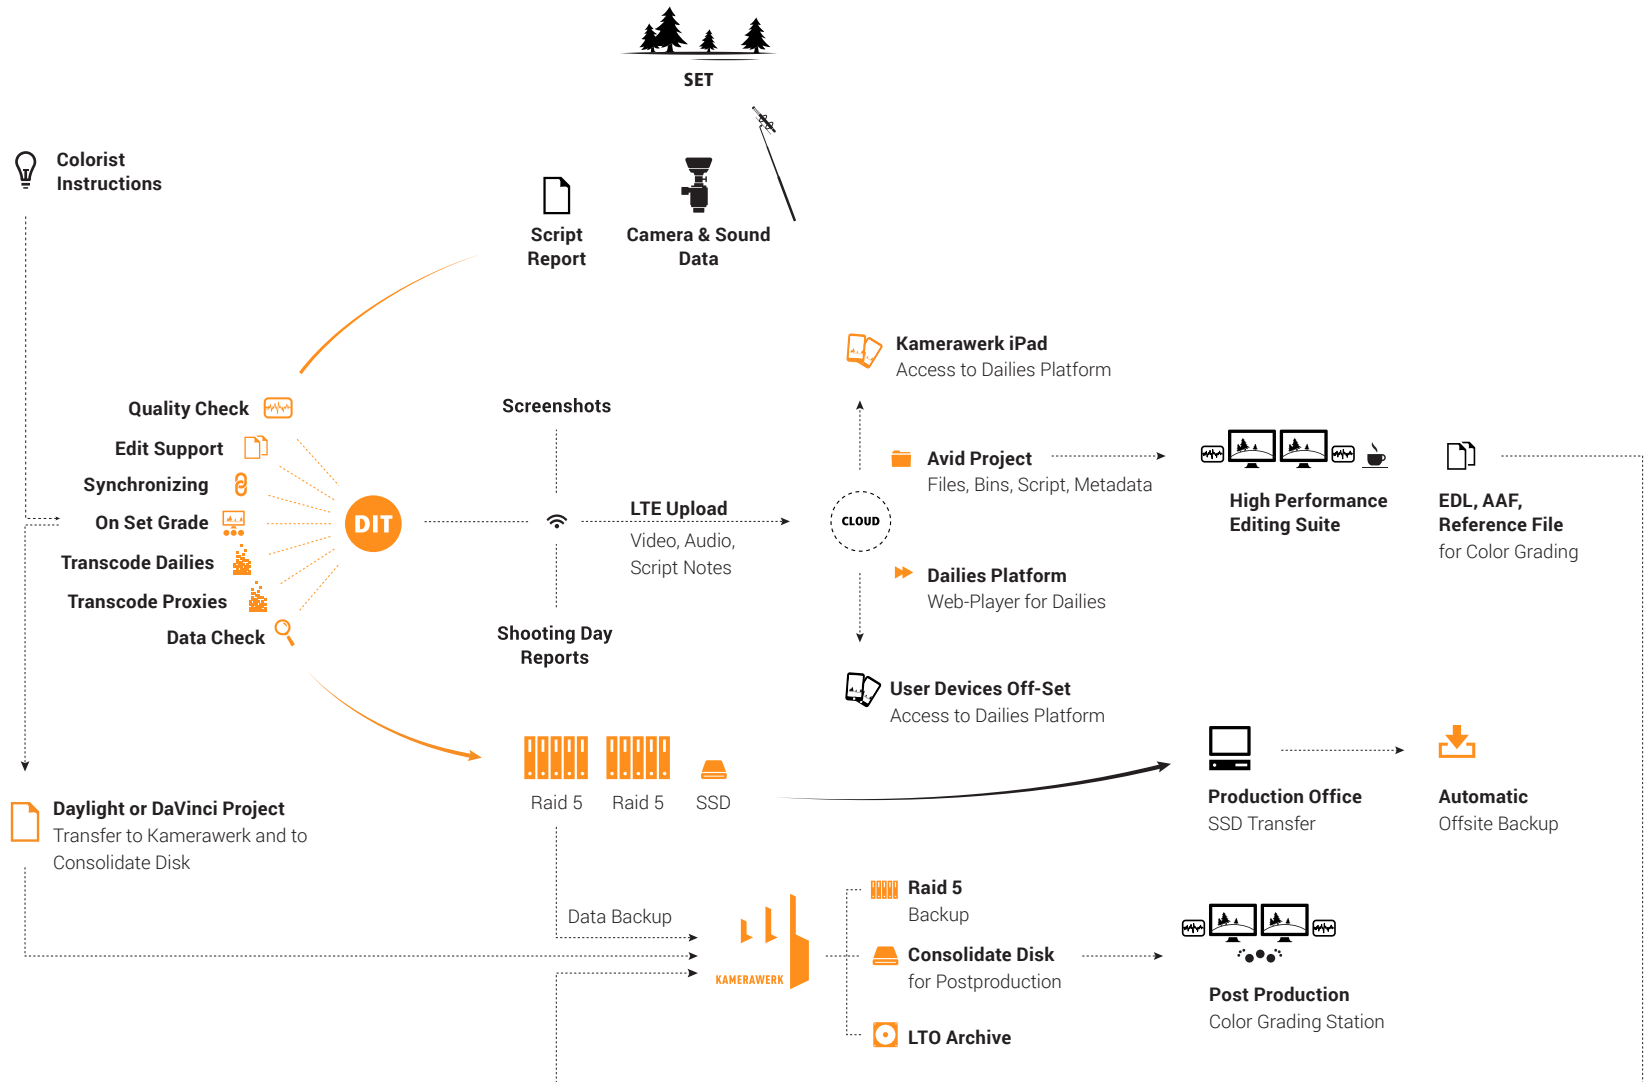

## LTO Archive

Hard disks can fail. We offer professional LTO archiving for your footage.
